OES Employment and Wages by Occupation

Wage data for all geographical areas have been updated to the **first quarter of 2008** by applying the U. S. Department of Labor's Employment Cost Index to the 2006 SOC wage database. The wage data has not been validated by the Bureau of Labor Statistics (BLS) and are not official BLS data series, but LMIID feels that the additional information is useful to users of our wage data. The **occupational employment estimates are for May 2007**.

Occupational "CodeFinder"

Are you looking for information on a job but don't know the "official" title or code? Are you looking for corresponding Occupational Employment Statistics or Dictionary of Occupational Titles codes? The new **Occupational "CodeFinder"** is here to help!!

The data presented in these tables **do not meet the legal requirements for prevailing wage determinations for foreign labor certification purposes**. See the [Prevailing Wage Program for H-1B and Permanent Visas](#) for information about prevailing wage determinations for foreign labor certification.

Use the [Wages Data Search Tool](#) to select just the occupation you want or to compare wages across geography.
