Occupation Profile - Step 1

To find occupational information, first enter an occupation title, keyword, or occupation code. Then select an area and click on the Search button.

Search Hints: The keyword search will look for the word or phrase in the occupation titles and descriptions. To narrow or broaden the scope of your search, you may wish to experiment with the key word you submit. For example, a search on lawyer will return 3 occupations, while a search for law will return over 30 occupations.
